Summary

Software Engineer and Published IEEE researcher with hands-on experience in React.js, JavaScript, REST APIs, and full-stack web development, delivering 40% performance improvements and 30% user engagement growth in production systems. Skilled in Agile/Scrum environments, CI/CD workflows, and integrating LLM APIs (ChatGPT, Gemini, Claude) to build scalable, high performance solutions.

Experience

Frontend Developer Intern

May 2025 – Aug 2025

Gwing Software Pvt. Ltd. — Hyderabad, India

- During my internship, developed a fully responsive, cross-browser-compatible e-commerce web application using React.js, Tailwind CSS, Node.js, Cursor AI, and Google Antigravity, implementing AI-driven product recommendations, dynamic category filtering, and intelligent search to improve user engagement and session retention by 30
- Developed interactive frontend components using DOM manipulation, asynchronous data handling, real-time cart management, and client-side form validation; implemented a modular, reusable JavaScript architecture and optimized rendering to achieve 40

Projects

AI-Powered Odisha Express Metro Navigation System

Mar 2026 – Apr 2026

- Architected an immersive 3D interactive metro map using React.js and Three.js with a component-based design, serving real-time passenger guidance across 150+ stations via an embedded AI chatbot.
- Reduced average query resolution time by 40%, optimized Vanilla JavaScript DOM interactions for a fully responsive, cross-browser experience, improving UI load performance by 35%.

Full-Stack Alumni Portal for Educational Institution

Nov 2025 – Apr 2026

- Built a secure, scalable alumni networking platform using Laravel, PHP, MySQL, and JavaScript with RBAC, authentication, a job & internship board, and event coordination serving 10,000+ alumni across 10+ departments.
- Designed a normalized relational MySQL schema and RESTful API layer; implemented an admin dashboard for user management, content moderation, and engagement analytics.

Technical Skills

IDE & AI Tools	VS Code, Google Antigravity, Cursor AI, Postman, Claude AI
Languages	Java, JavaScript (ES6+), SQL, HTML5, CSS3, Typescript, OOP (Java), DSA
Backend	Spring Boot, Spring MVC, Spring Security, Node.js, Express.js
Frontend	React.js, Three.js, Bootstrap 5, Tailwind CSS
Databases	MySQL, PostgreSQL, MongoDB
Cloud & DevOps	AWS, Docker, Jenkins
Deployment	Git, GitHub, Vercel, Netlify

Education

Qualification	Board / University	Institution	Year	Percentage
B.Tech in Computer Science & Engineering	NIST University	NIST University	2022–2026	7.04 CGPA
Intermediate in Science (PCMB)	CHSE Odisha	Khallikote Higher Secondary School	2020–2022	71%
Secondary School (SSC)	BSE Odisha	SSVM Ramahari Nagar School	2020	74.84%

Certifications

Claude with Google Cloud Vertex AI — Anthropic (2026)

Web Development Fundamentals — IBM (2026)

Ultimate Web Development Course 2026 - Build Modern Websites — Udemy (2026)

AI Fundamentals: Foundations for Understanding AI — IBM (2026)

ChatGPT for Learning & Development Pros! (L&D + ChatGPT) — Udemy (2026)

Software Engineering Job Simulation — JPMorgan Chase & Co. Forage (2026)
